Below is a form regarding child custody. With family situations changing, we as the school need to be kept up to date on where our students are living and who they are living with. If living arrangements change during the school year, we need the most recent copy of the custody papers. If you already have sent copies of your custody papers, please check YES with the child's name so we can double check. Thank you for your time in this matter.

CUSTODY DOCUMENT REQUEST

The law requires schools to have on file all custody papers of students attending that school. Please complete the following and sign.

_____ YES, there are custody documents for this child, _____.

I will furnish these documents to Vanlue School to be copied and placed in a file at the school.

_____ NO, there are no custody documents for this child, _____.
